

## CORPORATE PARTNER WORKSHEET

Heartland Health Alliance  
 42509 Wheat Ridge Drive  
 Cambridge, NE 69022

**Description of Services Provided:**

In 1994, HHA established a Credentialing Verification Organization (CVO). Our office has two staff members with over 23 years combined credentialing experience. Our mission is to provide timely and accurate credentialing information to our clients. At present time, we are servicing 30 clients and have approximately 2,000 providers in our database that we credential and re-credential as requested by our clients.

We provide a thorough quality assurance audit on each file prior to its release to the client. In addition, we offer a 30 business day guarantee turnaround time on initial and reappointment files. The 30 days commences upon receipt of a completed application and supporting documents. If we fail to follow through on completing the file in 30 days, the client doesn't pay for the service. The exclusion to this guarantee is if the applicant is not cooperative or primary sources are nonresponsive. We offer convenient, easy to use online application and peer referencing forms to streamline the process.

In March 2016 we will begin offering insurance credentialing for managed care organizations and provider enrollment for commercial payers.

If you are interested in our service or have additional questions, please contact Amy Schroeder at 402-560-1873 or amy.schroeder@bryanhealth.org.
