Description of Services Provided:

WahlTek, Inc. provides a complete solution of dictation and transcription products and services. We can provide dictation hardware and software ranging from digital hand held devices to Enterprise wide networked based systems for voice capture, voice recognition and distribution. We can also provide standalone Transcription Software or small to Enterprise level networked Transcription Software with HL7 Interfaces for report upload and ADT download. All of these products can be obtained in a premise based solution or as an Cloud based service.

WahlScribe is capable of providing complete turnkey Medical Transcription outsourcing or can augment your existing staff for back up or back logs. We use a "state of the art" Cloud based documentation platform, follow all current HIPAA guidelines, use up to date security technology at all levels of patient information handling and maintain Cyber Insurance. We provide competitive pricing, 98% accuracy, and guaranteed contracted turnaround times.
